

NO.7 sanding belt

Brand : 3M
 Size(mm) : 10*330, 20*520, 60*260,50*2100,100*610,100*915

3M

Material : Non-woven+Nylon+Aluminium Oxide

Application : Workpiece materials: stainless steel, aluminum, alloy, wood, plastic and synthetic materials, etc.

Grinding process: deburring, grinding, polishing, finishing, wire drawing

Application examples: stainless steel sinks, tableware, kitchen utensils, knives, ovens, plates, aluminum, fishing rods, woodware and flat metal

Operation: manipulator grinding, automatic grinding, desktop grinding, manual tool grinding

Brand : 3M, OEM Welcomed

Size : 50*2100mm

3M 926A

Material: Ceramic Alumina

Application : This product is suitable for polishing 304/316 stainless steel and other extremely hard and tough stainless steel, alloy steel (such as titanium alloy, magnesium alloy, nickel alloy), carbon steel, brass and bronze. It is widely used in the golf industry to polish ball sprue and ball billet solder joints. It is also suitable for industries such as precision casting, valve and pipe manufacturing.

Brand : 3M

Size : 150x2000mm 50x1000mm 100x1250mm

3M 984F

Material: Ceramic Aluminium Oxide

Application : This product is suitable for polishing 304/316 stainless steel and other extremely hard and tough stainless steel, alloy steel (such as titanium alloy, magnesium alloy, nickel alloy), carbon steel, brass and bronze. It is widely used in the golf industry to polish ball sprue and ball billet solder joints. It is also suitable for industries such as precision casting, valve and pipe manufacturing.

Product name : OEM

Deerfos XA167

Size : 1inch 2inch 3inch 4inch 5inch 6inch

Material : Environmentally Friendly PU

Features : Stiff cloth backing with high strength, Able to withstand high grinding pressure. A certain oil resistance. Aggressive rapid cut rate due to its self-sharpening grain. Special cooling materials to lower grinding temperature. Good fatigue resistance.

Brand : 3M

Material : Aluminium Oxide

3M 237AA

Size(mm) : 10*330,20*520,50*2100,100*610or customized

Application : Workpiece materials: stainless steel, aluminum, alloy, wood, plastic and synthetic materials, etc.

Grinding process: deburring, grinding, polishing, finishing, wire drawing;

Application examples: stainless steel sinks, tableware, kitchen utensils, knives, ovens, plates, aluminum, fishing rods, woodware and flat metal

Brand : OEM

OEM

Size : 50x2100mm/ 60x3350mm / 60x3350mm
 60x3350mm/ 22x520mm/ 50x2400mm

Material: Zirconium corundum / Aluminum Oxide

Benefits : For Sanding and finishing of wood; Aggressive cutting; Resistant to heat; Versatile.

Super using on Plywood/Fiber; Excellent for finishing; Penetrates dense;

Very flexible and conformable, soft-acting; Reduced loading
